

## Rainbow Bargello Rough Directions

**\*\*PLEASE NOTE:** I'm making these directions off the top of my head based on when I made this quilt YEARS ago. There will be inaccuracies and mistakes. I will correct them as best I may as they are brought to my attention. That being said, please feel free to ask questions if you're confused and I will try to explain as best I may.\*\*

### Supplies

- 2 Jelly Rolls with 1 strip of each color  
\*(If you use a jelly roll with 2 strips of each color it may turn out but I'm not sure. If you do, please send a photo!)
- Backing
- Binding

### Directions

**\*\*TIP:** Shortening your stitch length will help keep the pieces together as you work with them.\*\*

1. Sew all strips together lengthwise, alternating where you start on each row. This helps prevent the strip set from warping/bowing out as you put it together.

Continue until all strips are sewn together.

2. Sew the first and last strip together to make a loop.

First and last strip will connect at top.

- Being as careful as you can not to warp it, cut a strip off the loop starting at 3". Then cut strips at 2 3/4", 2 1/2", 2 1/4", 2", 1 3/4", 1 1/2", 1 1/4", and finally 1". Then cut strips going up in size. 1 1/4", 1 1/2", 1 3/4", 2", 2 1/4", 2 1/2", 2 3/4", 3". Once you hit 3" start going back down again in size. Try and get as many strips as you can per loop.

Rough example; doesn't contain all sizes.

- Pick a color to start at, and gently separate those two colors, then lay it flat on the ground. For the next strip, go down one color and separate there and lay flat. Continue until all strips have been separated.

Rough example; doesn't contain all size strips.

- Last, start sewing strips together. Again, alternate directions to prevent bowing/stretching.

Rough example; doesn't contain all size strips.

- Add batting and backing and quilt as desired.
